

## OUTSOURCE CONTRACT PACKAGING SERVICE FOR PHARMACEUTICAL MANUFACTURER

Major US Pharmaceutical Manufacturer  
outsources contract packaging requirements to  
Millmount Healthcare

### Challenge

A leading US pharmaceutical company, with a manufacturing facility based in Cork, Ireland, had a requirement to increase capacity for stable products and focus on new developments. This US pharmaceutical company required an outsource partner capable of matching their in-house quality standards and high level of service.

### Solution

Millmount Healthcare, as an Irish contract packer operating to pharmaceutical standards, were investigated to determine suitability. Millmount Healthcare, with a high level of qualified personnel managing the operations and a facility built to pharmaceutical standards, fully HPRA approved and operating to cGMP standards, proved to be a perfect fit for this pharmaceutical manufacturer.

### Result

Millmount Healthcare is a solution provider with an innovative and flexible approach to fit a partner's requirements. All components for this pharmaceutical manufacturer are sourced direct and secondary packaging is performed on brite stock received in from their Cork site.

Millmount Healthcare provide a service of overlabelling brite stock and packaging into cartons with a Patient Information Leaflet (PIL) for whichever market is stipulated. Upon QP release from packaging, the product is delivered back to the pharmaceutical manufacturer's distribution site and released onwards to European & Middle Eastern markets.
